We learned that it was the pionic of the children of the St. Patrick's Church School. From what we P saw of it, it must have been a very pleasant one, and right well must the children and their friends present have enjoyed it.

By the way, the Park is beginning to resume its pristine beauty. All the unsightly wooden structures are removed, and the spots made bare by the tramping of the soldiers, are being covered over once more with a green carpet.

IJ We were favored last evening with a pleasant ride from the city, on the National Road, to some distance beyond Camp Chase. The Camp presents a very fine view at evening when seen from the road, with its long line of entrenchments extending for about a mile on the south side of the road, and bordered on the vest with snow white tents. Then the squade of soldlers seen in the distance drilling, marching and counter-marching, make the scene still more picturesque. So rare have such sights been in this country, that it is well worth a ride of four or five miles, to obtain a full view of Camp Chase.

CAMP THOMAS .- We yesterday visited Camp Thomas—the encampment of Col. Caraingron's Regiment. It is pleasantly situated on rolling ground, on the east side of the Worthington road, between three and four miles north of the city. There are sixty tents already put up on the ground, and between 250 and 300 men encamped there. Twenty five were added to the number yesterday, and new recruits are almost daily arriving.

TRACK CLEAR .- The raine have done cons erable damage to the railroads in different parts of the State. We learned last night, by a that the track between Crestline and Pittsburgh was clear, and that the trains between th points were running as usual.

Graffon, Aug. 14.—A severe skirmish took place a few miles from here, yesterday, on the Fairmount and Webster road. Information having been received that a regularly organized body of rebels, living in this county, were lodged within a few miles of Webster, General Kelly sent Captain Dayton, of Company A, Fourth Virginia Regiment, with fifty men, from Webster to disarm them. After acouting nearly twenty-four hours he came suddenly on them, yesterday noon, and after an hour's severe fighting, succeeded in killing twenty-one and putting ing, succeeded in killing twenty-one and putting the others to flight, without a loss to his com-mand. The rebels numbered 200, and were composed of the worst characters of this county, led on by Zack Cochrane, Sheriff of this county under the Letcher rule.

It is excertained that Gen. Magruder left
Yorktown a few days ago with about 7,000
rebels, and went in the direction of Richmond.
It is supposed they were to join the column of

There are many evidences that the rebels
are concentrating between here and Richmond
nearly all the troops they have in Virginia.—
This is construed into a preparation on their
part for an attack upon our lines here.

(Time's Dimatch.)

[Time's Dispatch.] Gen. Carlisle, who has just arrived from Western Virginia, states that the rebel forces under Lee had crossed the Cheat River in two bodies of 5,000, by the road from Staunton, and another body by the road from Lewisburg. They were within 15 miles of Gep. Rosecran's position, near Cheat Mountain Pass, which mmands the two roads. DEON A

Further from the Recent Buttle in Missouri. Spaineriald, Aug. 12.—The correspondent of St. Louis Democrat furnishes a detailed unt of the battle of Wilson's Creek, but account of the battle of Wilson's Creek, but all the main facts concerning the engagement have already been telegraphed. The enemy's camp extended along Wilson's Creek about three miles, enclosed by high ground on each side, upon which the greater part of the engagement was fought. It does not appear from this account that the rebels were driven back any considerable distance, but their charges were all repulsed, and they burned a large amount of camp equipage and baggage to prevent its capture by our troops. The enemy had twenty-one pieces of arilllery and a very large body of cavairy. Gen. Siegel attacked the rebels from the Southeast as soon as he beard firing from Gen. Lyon's command, and drove them back half a mile, taking possession of their

camp, which extended westward to the Fayetteville road. Here a torrible fire was poured
into his ranks by a regiment which he had permitted to advance within a few paces of him,
supposing it to be the Iowa First. His men
scattered considerably, and consequently Col.
Solomon's regiment could not be railied.

Gen. Siget lost five of his guns, the other
being brought away by Capt. Flagg, who compelled his prisoners to drag it off the field.
Our troops captured about four hundred hosses.
Our loss is about two hundred killed, and from
six to seven hundred wounded, while the loss eix to seven hundred wounded, while the loss of the enemy cannot possibly be less than double our own, their forces having moved in large bodies and our artillery playing on them with terrible effect. Lieut. Colonel Brand, who commanded a rebel force at Booneville, and has since been acting as aid to Gen. Price

was taken prisoner.

Gen. Lyon's body has been embalmed for nveyance to his friends in Connecticut. The following are additional names of offi-cers killed: Capt. Mason, 1st Iowa Regiment; Capt. The great celebrity and increasing demand for this unequaled preparation, convinces the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other proparation in use. It cleanses the head and scalp from dandrulf and other cutaneous discases, causing the hair to grow luxuriantly giving it a rich, soft, glossy and flexible appearance, and also, where the hair is loosening and thinning, it will give strength and vigor to the roots and restore the growth to hose parts which have become baid, causing it to yield a resh covering of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Lavigorator, when all other preparations have failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest redectability. It will effectually prevent the hair from turning antil the latest period of life; and in cases where the hair has already changed its color, the use of the Lavigorator will with certainty restore it to it to its original hue, giving it a dark, glossy appearance. As a perfume for the tollet and a Hair Restorative it is particularly recommended, living an agreeable tragrames; and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form so as to preserve its place, whether plainlor in curis; hence the great demand for it by the ladies as a standard tollet article which none ought to be without as the price places it within the reach of all, being
